SIMPLE

ONE button operation.
Easy to change the parameters suiting your application.

SMART

DESIGNED with one purpose in mind, to be the best in it's job. PQ-800 has no time to spent on delays, it gets the job done. Moreover some applications do not need compression, so PQ-800 is able either to compress or not compress the product.

EXTREMELY
FAST

TIME is everything.
In that prospect PQ-800, is able to pack from 8 to 12 pieces/minute.

RELIABLE

HERE, at VRM headquarters, we never stop improving and further developing our products. We want to make sure that every machine will withstand every difficulty.

ECONOMIC

WORLD leading in power consumption. With 900VA welding unit and pneumatic strokes for the moving parts, PQ-800 consumes small resources. It is powered by a single phase wall socket and an air supply. Nothing more.

VRM

TECHNICAL SPECIFICATIONS

Welding unit.....1000 VA

Length of welding.....825 mm

Materials for welding.....PP,PO,PE,PA,OPP,CPE,PPE,PVC etc.

Working area.....800 x 800 mm

Stroke.....200 mm (or any other lenght you order)

Air pressure.....0.3 - 0.8 MPa

Air consumption.....3 lt / stroke

Production rate.....8 - 12 pcs / min

Adjustable welding time

Adjustable weld cooling time

Controlled operation cycle by PLC unit

CE

Dimensions.....960 x 960 x 950 mm

Weight.....130 kg

Minimum required area for installation of the machine: 1.5 x 2 meters
